

ALPHAS OS — Sales Forecast, Targeting, Break-Even & Pipeline Strategy

Version: 4.1
Entity: ALPHAS — Digital Business Solutions
Target Revenue Horizon: Q3/Q4 2026

1. Executive Summary & Revenue Targets

ALPHAS OS operates under a **Lean Duopoly Financial Architecture** that guarantees a **60% minimum gross margin** before sales compensation.

To achieve financial sustainability and rapid partner wealth creation, revenue is projected across three distinct monthly benchmarks:

MONTHLY REVENUE MILESTONES (EGP)		
Tier 1: Break-Even Baseline EGP 80,000/mo	Tier 2: Target Operating EGP 250,000/mo	Tier 3: Scale & Dominance EGP 500,000/mo

2. Monthly Revenue Financial Cascade (ALPHAS v4.1 Rules)

Under ALPHAS v4.1 financial rules, every EGP of gross revenue cascades down through 5 locked accounts:

Gross Revenue (100%) → COGS Cap (40%) + Closer Fee (15%) + Operating Profit (45%)

Operating Profit (45%) → Capital Reserve (25% of Op Profit) + Distributable Profit (75% of Op Profit)

Monthly Cascade Table across Benchmarks:

Financial Account	Formula (% of Gross)	Tier 1: Break-Even (EGP 80,000)	Tier 2: Target (EGP 250,000)	Tier 3: Scale (EGP 500,000)
Gross Revenue	100%	EGP 80,000	EGP 250,000	EGP 500,000
Max COGS Execution Budget	40%	EGP 32,000	EGP 100,000	EGP 200,000
Sales Closer Fee Pool	15%	EGP 12,000	EGP 37,500	EGP 75,000

Financial Account	Formula (% of Gross)	Tier 1: Break-Even (EGP 80,000)	Tier 2: Target (EGP 250,000)	Tier 3: Scale (EGP 500,000)
Gross Operating Profit	45%	EGP 36,000	EGP 112,500	EGP 225,000
Capital Reinvestment Reserve	11.25% (25% of Op Profit)	EGP 9,000	EGP 28,125	EGP 56,250
Distributable Net Profit	33.75% (75% of Op Profit)	EGP 27,000	EGP 84,375	EGP 168,750
Net Profit per Partner (50/50)	16.875% each	EGP 13,500 / partner	EGP 42,187.50 / partner	EGP 84,375 / partner

💡 **Note on Partner Total Take-Home Pay:**

Partners earn: Partner Profit Share + Task Execution Fees (from 40% COGS) + Closer Fees (15% on closed deals).

3. Break-Even Analysis & Overhead Structure

Fixed Monthly Overheads (EGP 28,000 / mo Baseline)

To keep the agency lean, fixed operational overheads are kept strictly under control:

- **Software & AI Subscriptions (ChatGPT, Midjourney, Figma, Vercel, GSuite):** EGP 6,500 / mo
- **Hosting, Staging Infrastructure & Server-Side Pixel (CAPI):** EGP 4,500 / mo
- **CRM, EmailJS & Automation Subscriptions:** EGP 3,000 / mo
- **Legal, Accounting & Banking Fees:** EGP 4,000 / mo
- **Paid Ads Self-Marketing Budget (Inbound Lead Gen):** EGP 10,000 / mo
- **TOTAL FIXED MONTHLY OVERHEAD:** EGP 28,000 / mo

Break-Even Volume Calculation:

At a 45% Gross Operating Profit margin, the agency breaks even on fixed operational overheads at:

$$\text{Break-Even Gross Revenue} = \frac{\text{Fixed Overhead}}{\text{Gross Operating Profit \%}} = \frac{\text{EGP } 28,000}{0.45} = \text{EGP } 62,222 \text{ /month}$$

- **Minimum Monthly Deal Volume to Break Even (EGP 62,222/mo):**
 - Option A: 2 × Ecommerce Web Builds (EGP 34,500 ea) = **EGP 69,000**
 - Option B: 4 × Essential Media Buying Retainers (EGP 11,500 ea) + 1 × SMM Growth (EGP 11,592) + 1 × Strategic Audit (EGP 17,250) = **EGP 74,842**
 - Option C: 1 × Enterprise Strategy (EGP 23,000) + 1 × Ecommerce Web (EGP 34,500) + 1 × Starter Ads (EGP 5,750) = **EGP 63,250**

4. Service Target Mix (To Achieve EGP 250,000

Target)

To consistently hit **EGP 250,000 / month**, the agency targets a **60% Retainer / 40% One-Time Project** mix:

TARGET MONTHLY SERVICE PORTFOLIO MIX			
Service Pillar	Package Tier	Deal Volume	Total Revenue
1. Web Engineering	Ecommerce	3 deals	EGP 103,500
2. Media Buying & Ads	Ecommerce	4 retainers	EGP 69,000
3. Social Media (SMM)	Domination	2 retainers	EGP 32,200
4. Store Management	Gold Ops	2 retainers	EGP 23,000
5. Strategic Consulting	Enterprise	1 deal	EGP 23,000
TOTAL MONTHLY TARGET			**EGP 250,700**

5. Team Roles & Operating Workflows

ORGANIZATIONAL ROLES		
Mohamed Asy (CEO / Dev) - Technical Lead - Web Engineering & QA - CAPI / Server Tracking	Abanoub Hany (COO/Media) - Growth & Ads Lead - SMM & Creative Dir. - Client Success	External Specialists - UI/UX Designers - Video Editors - Content Writers

Workflow Matrix (Step-by-Step):

Stage 1: Lead Intake → Stage 2: Audit → Stage 3: Proposal → Stage 4: Execution → Stage 5: Retainer

- Lead Intake & Qualification (Abanoub & Asy):**
 - Lead enters via landing pages or ad campaigns.
 - Qualified based on business size, budget (> EGP 15,000), and tech readiness.
- Discovery & Diagnostic Audit Session (Lead Consultant):**
 - Conduct technical codebase audit (Asy) or CRO funnel audit (Abanoub).
 - Deliver actionable strategic roadmap.
- Dynamic Quotation & Scope Lock (Sales Closer):**
 - Use `QuotationMaker.jsx` to build modular proposal with 40% COGS task breakdown.
 - Lock deal terms and collect 50% upfront deposit.
- Project Execution & Delivery (Dev & Media Teams):**
 - Asy executes technical development tasks (55% COGS allocation).
 - Abanoub executes campaign setup and media strategy (50% COGS allocation).
 - External contractors execute graphics and video editing under 40% COGS budget cap.
- Retainer Onboarding (Client Success Lead):**
 - Transition web build clients into Store Support (Pillar 4) and Media Buying (Pillar 2).

6. Sales Funnel & Conversion Metrics

To close **12 total deals/month** (EGP 250,000 target), the sales funnel requires the following top-of-funnel volume:

Funnel Conversion Benchmarks:

Funnel Stage	Conversion Rate	Required Volume	Metric Goal
Top of Funnel (Impressions / Clicks)	3.5%	1,000 clicks	Ad CTR > 2.5%
Inbound Form Submissions / Inquiries	60%	35 leads	Response time < 15 mins
Discovery Call to Qualified Opportunity	75%	21 opps	Audit uptake rate > 50%
Quotation / Contract Sent	75%	16 proposals	Quote turn-around < 24 hrs
Contract Signed & Closed Won	75%	12 deals	EGP 250,000 Revenue

7. Deal Pipeline Stages & Execution Checklist

Pipeline Stages in ALPHAS CRM:

PIPELINE STAGES				
1. Lead IN (New Lead)	2. Audit (Discovery)	3. Quote (Proposal)	4. Contract (Negotiate)	5. Closed Won (Onboarded)

1. Lead IN (New Prospect):

- Lead record created in Firestore/CRM ([firebase-crm.js](#)).
- Initial contact made via WhatsApp / Call within 15 minutes.

2. Audit & Discovery Session:

- Business requirements gathered.
- Technical / Growth audit performed.

3. Quotation / Proposal Sent:

- Customized proposal generated via [QuotationMaker.jsx](#).
- Dynamic 40% COGS task sub-panels attached.

4. Contract Negotiation & Scope Lock:

- Contract terms reviewed and signed.
- 15% Closer Fee reserved in sales ledger for the closing partner.

5. Closed Won (Project Delivery):

- Upfront 50% deposit received.
- Project kickoff meeting scheduled with dev/media lead.
